

812 AERO

AIRCRAFT CARPET SERGER

The Karpet King 812-AERO aircraft carpet serger has been developed to serge thin high density commercial airline carpets as well as having the ability to handle the much thicker VIP/Private jet carpets, giving a perfect edge every time.

-  12 month warranty
-  Free training session
-  Free delivery
-  Flexible finance plans

SIMPLE TO OPERATE & EASY TO MAINTAIN

With the capability to maneuver and edge internal and external curves with ease, the 812 AERO provides a quality finish every time. Perfect for use with commercial airline carpets or carpets for private aircraft, the 812 AERO serges well with man-made synthetic yarns or organic wool yarns.

Being lighter in weight than most other carpet serger machines on the market, the 812 AERO is popular with industry professionals, offering convenience, ease of use and durability, whilst helping you to produce an end result you can be proud of.

- ✓ Stitches with synthetic and organic yarns, including BCF, polypropylene, polyester, or wool
- ✓ Three-thread finish
- ✓ Able to handle all carpet fabrics, no matter the thickness
- ✓ Ideal for use on commercial or private aircraft carpets
- ✓ Available in 1ph 110v or 220v, or 3ph 380v-415v
